STAT

Returned are the materials which had been forwarded to the Committee by [REDACTED] concerning the U-2. These have been reviewed. There is absolutely nothing which is new to us in this. It is simply a question of his interpretation of the data and the photographs. Suffice it to say, I would rather rely on the analysis of the experts than [REDACTED] views. In any event, he has presented nothing new by way of factual evidence.

If there is anything further I can give you on this, please let me know.
